

**“What is LATCH anyway?”**

# **Become a Child Passenger Safety Technician**

This course will prepare you to help conduct child safety seat checkup events, help educate parents, and learn more about how to safely transport children. Upon completion, you will become a nationally-certified CPS Technician.

This course is designed for anyone, including law enforcement, fire/ems, healthcare providers (CEUs available), community advocates, parents, educators, childcare providers and more!!

**North Platte, Nebraska  
September 20-24, 2005**

To learn more about this educational opportunity, visit: <http://www.dmv.state.ne.us/highwaysafety> and click on “Training” and “Child Passenger Safety”  
Or Call Scott Eveland at 308/289-0017  
Or visit us at <http://www.wcdhd.org/sandhills>

*The Cost of this course is \$150, with lunch provided most days. Scholarships may be available.*

**“When can I turn my baby’s car seat around to face forward?”**

**“My car seat has a tether on the back...how can I use it?”**

**“Why doesn’t my car seat stay tight in my car?”**
